

Gardening Club

During this summer term at CAEA we have started a Gardening Club which is responsible for the running and maintenance of the school allotment. All students have the opportunity to join the club which is on a Monday, Tuesday and Thursday Lunchtime.

The students' volunteer to use their playtimes to work with Mrs Clement-Smith to plan and prepare the area. They have adopted a planting bed where they tend to and choose their plants.

Jamie explained that *"We chose a plot and weeded the soil and we used spades and rakes to dig over the soil and made it smooth. We planted red onions, cabbages and lots of vegetables"*. He went on to explain that he likes *"the fact we get to grow all different types of vegetables, the fact I get to see Sunshine Class and Mrs Max helps us to make our plot and look after the seeds and plants. I am now going to try and grow some things at home like Basil and Chives"*.

We look forward to tell you all about the student's hard efforts and hopefully how well the plants grow!
